

Sarah Davidson- Implementation Co Lead

Sarah joined the University's Department of Architecture and Built Environment in 2018 and is primarily responsible for developing BIM related content and research in under graduate and post graduate programmes. She continues to work closely with industry and is supporting BIM implementation on a number of projects. Sarah is keen to help organisations to successfully adopt collaborative working practices and technologies driven through the BIM Level 2 initiative.

Sarah has nearly 30 years' experience in the construction industry and is a Fellow of the RICS. She was the first lead for the East Midlands BIM Regions Group and prior to joining the University of Nottingham she was Head of Research and Development at international construction consultancy Gleeds.
